EDUCATION

• 2015-2017

Diploma in Mechanical Engineering (DME)
Distinction with 91%
Rajagopal polytechnic college
Gudiyattam, Tamilnadu

• 2014-2015

HSC with 83%
Islamiah higher secondary school
Pernambut, Tamilnadu

• 2012-2013

SSLC with 92%
Islamiah higher secondary school
Pernambut, Tamilnadu

Career Objective

A diploma engineer with 3 years of an experience as mechanical maintenance in the field of mechanical engineering. Seeking a challenging position, where my technical and problem solving skills can be utilized to benefit the organization as well as to increase and enhance my knowledge.

Experience

Junior Mechanical Engineer / July 17 - Apr 20

Steel Strips Wheels Limited Limited, Maintenance Department
Chennai, India.

Job Description

- To carry out maintenance, modification, overhauling and department activities in accordance with standard operating procedures.
- Carry out required daily mechanical maintenance work and routine preventative mechanical maintenance work according to set schedules.
- Diagnose causes of mechanical malfunction or failure of operational equipment such as defective parts replacement, adjustment, alignment, oiling, greasing and take corrective measures in collaboration with mechanical engineers.
- Read and understand technical manuals, mechanical diagrams and machinery drawings and apply the knowledge to carry out maintenance and troubleshooting tasks.
- Monitor the physical condition of all machines in assigned lines and report non-conformances to mechanical engineer to facilitate effective maintenance.
- Respond to mechanical failures and implement corrective actions in adherence with procedures and guidelines to reduce downtime and maximize normal functionality of equipment.
- Supervise fabrication activities (welding, grinding and cutting) and machine upgrade.
- Update the maintenance logbook, MTTR and MTBF reports and record details of work carried out including defaults, problems and conditions of all machines to ensure timely availability of information.
- Check the necessary stock levels of spare parts to support effective inventory control.
- Work closely with mechanical engineers and supervisors in maintenance activities.
- Make safe working environment to the equipment and personal by following safe procedure and best practices.

COURSES

Refrigeration and air conditioning
Special machining and techniques
CNC programming

COMPUTER SKILLS

- Operating System
- Google drive
- Email & outlook
- Auto CAD
- Proficient in MS office
- Graphical skills
