---

March 2016 - Present

### **aircraft loading supervisor**

at dnata

**Location:** Dubai, United Arab Emirates

**Company Industry:** Aviation Support Services

**Job Role:** Logistics and Transportation

Current Job:- Promoted As Aircraft Loading Supervisor Grade-6 From March 2016.

Job Role:-

Deploy

- Monitors the readiness of various ground services providers to ensure that all resources are available and that the equipment restricted area (ERA) is clear to receive inbound aircraft and deliver a safe on-time performance

• Lead

- Ensures that safety briefings are conducted regularly while intervening when there is risk exposure, role model safe behaviours and follows up on corrective actions
- Ensures safety of staff and that they have the knowledge, and confidence to work safely by providing support, direction, being a role model for the desired safety behaviours
- Communicates with team members to deliver information verbally in a clear, concise and comprehensive manner
- Leads team of staff on the day of operations, undertaking all loading and equipment operation activities to safely handle all arrival & departure flights efficiently
- Complies with all relevant safety, quality and environmental management policies, procedures and controls to ensure a healthy and safe work environment
- Implements departmental policies, processes, procedures and provides instructions to the team on the day of operations
- Implements day-to-day operations assigned and ensures compliance with the established standards and procedures
- Undertakes aircraft damage check in a timely manner to ensure that within 15 minutes of the actual time of arrival (ATA) the airline representatives, flight officer and safety are informed

• Execute

Flight Arrival:

- Collects the required information (Loading Distribution Message (LDM), CPM (Counter Pallet Message), Baggage irregularity tags and Personal Digital Assistant (PDA)) to communicate the information to relevant stakeholders
- Communicates the ATA of the aircraft to the Flight Officer confirming the aircraft type and the registration
- Escalates any Ground Services Equipment (GSE) serviceability concerns to the Flight Officer on the shift

• Flight Departure:

- Validates with key stakeholders the aircraft registration/ flight details (tallying of aircraft registration with loading instruction reporting form (LIRF))
- Monitors the loading process to ensure that the assigned dead load is loaded and reconciled as per the LIRF
- Confirms the safe condition of any dangerous goods (DGR) prior to loading and signs the notification to captain (NOTOC) for handover to the operating Captain
- Utilises the Load Deviation Authorization form in case of any change in the load plan (within last minute change (LMC) limits) and provide it to the Load Control Officer
- Reviews and checks the boarding status and ensures reconciliation with the Customer Services Team Leader (CSTL) on the final figures and as per the Flight Manifest Summary Report (FMSR) for the bin cards and unit numbers
- Reviews the GX print received from the CSTL in case of off-loading and communicates with BHC for the location and details of the baggage to ensure offload of the baggage
- Reconciles all dead load is loaded as per the LIRF and receives confirmation of the boarding status from the CSTL on the final passenger figures

- Updates the load sheet with any LMC (Below and Above Wing) to ensure that the boarding over slip from the CSTL matches the load sheet
  - Updates the Flight officer on time targets and any delays
  - Monitors the readiness of the pushback is there on-time
  - Conducts visual bay sweep prior to door closure and requests logistics for collection of any offloaded dead load.
