Dear Sir!

I would appreciate being considered as an HSE Professional with your organization. I'm highly qualified and motivated HSE Professional. I've experience in 5-Star Resort Project, Nuclear Power Plant Construction, Water & Powerplants, and Oil & Gas Surface Facilities Construction. By Qualification I've completed Chemical Engineering degree. I've completed NEBOSH IGC, IOSH MS, OSHAD Practitioner Course, Train the Trainers (IADT) from Highfield Awarding Body of Compliance. Currently I'm pursuing for Associate Safety Professional Certification that leads you to Certified Safety Professional.

I've experienced challenges during construction of a nuclear power plant, and had a worthy experience of managing health and Safety with teams of world class organizations including Emirates Nuclear Energy Corporation, Abu Dhabi National Oil Company, Korea Electric Power Corporation, Grupo Sanjose, Hyundai Engineering and Construction, Faithful & Gould and Samsung C&T.

Currently I'm working on Yas Integrated Destination Resort - Family Hotel Project in Yas Island Abu Dhabi.

In the arena of safety management, I have notable credentials. Fully trained and licensed at securing and protecting business environments. I supervised staffs of a number of employees putting them through their paces looking for safety violations health hazards and anything else that puts people at risk.

I know what to do when issues arise determining severity and initiating solutions. I see that all occupants know how to act in the case of emergencies. I adhere to strict safety standards conducting workshops and Trainings.

My resume certainly highlights why I am the candidate for your organization.

Still I am prepared to come in for an interview at your convenience. I am certain the interview will leave no doubts I am the right candidate.

Thanks, and Kind Regards

Ibrar Shah
