WORK EXPERIENCE

Experience :- More than 6.5 years in manufacturing and production field

Organization	Designation	Duration
Rane Engine Valve Ltd (Tamil Nadu , India)	Jr. Production engineer	Aug 2013 - Jan 2015
Al Baddad international (Dubai , UAE)	Site Engineer	Feb 2015 - till date

ROLES

- Responsible for the day-to-day Supervision of structural works and erection activities happening on site
- Manage pre-construction planning activities, review and comment on the Contractor's construction schedule(s), method statements, risk assessments for the structural works.
- Participate in Prequalification review of proposed structural steel suppliers / fabricators and attend factory visits
- Assigning and supervising the Welding foreman and Steel Inspector on a daily basis so that all contractor activities are adequately covered.
- Supervising and remaining vigilant regarding all aspects of the structural work construction activities. Responding with appropriate and necessary levels of supervision to provide quality assurance in accordance with contract documents.
- Reviewing the contractor's progress at all times. Oversee the recording and regular updating of the progress of the works. Records are available to indicate the progress of the works at all stages of the contract.
- Monitoring the material incorporated in the work, the materials stored at the site, and the contractor's manpower and equipment.
- Attending weekly, monthly, and other progress & technical meetings held at the site . Identifying constraints and recommending corrective measures.
- Reviewing inspector's daily reports and generally overseeing the foreman daily activities including works assignments, on-site performance, and supervising the contractor's operations.
- Coordinating with contractor's supervisory personnel regarding schedule, sequence, and method of work.
- Schedule the duties of the inspectors to avoid any undue delay to the Contractors work on site.
- Work with the Safety Engineer to monitor the Contractors safety arrangements and respond promptly to any safety concerns raised by the Safety Engineer.
- Reviewing materials submittals, shop drawings, method statements, as-built drawings, manuals, etc. related to the structural works and ensure that the submittals are responded to in a timely manner.

MAJOR PROJECT DETAILS

These are some of the major projects I had completed in recent past .

PROJECT : 1

Title : Emirates Global Aluminum warehouse
Description : To construct an steel structural warehouse of size 80*20m
Team Size : 15

PROJECT : 2

Title : Ajman Exhibition Tent
Description : To construct an aluminum structural Tent of size 40* 200m
Team Size : 13

PROJECT : 3

Title : Katara Falcon Event -Tensile structure
Description : Tensile structure for a mega Event in Qatar
Team Size : 18

PROJECT : 4

Title : Fruit market Tensile shade
Description : To construct a Tensile shade
Team Size : 16

PROJECT :5

Title : MS CONSTRUCTION prefabricated building
Description : Prefabricated building
Team Size : 40

Apart from this I have experience in **car parking,tensile shades, pergola , cladding and curtain walls etc.**

FIELD OF INTERESTS

- Production and Planning engineer
- Projects and planning engineer

SKILLS

- MS office
- Primavera P6
- AutoCAD
- Experienced in **LGS –Gypsum /Cement board , roofing , and MEP works.**
- Structural steel fabrication and heavy **structural erection**
- Experience in **Aluminium and Glass fabrication , installation , cladding and curtain wall etc**
- Experience in high precision **CNC works** (Fanuc & Mitsubishi)

ACHIEVEMENTS

- Got rewarded for implementing cost savings activities at Rane Engine valve
- Rewarded by Emirates Global Aluminium and Al Futtaim for conducting safe erection activities on site

STRENGTH

- Ability to work under pressure
- Effective communication skill
- Can motivate workers to finish work on time

DECLARATION

I hereby declare that all the information's given above are true and correct with the best of my a and I bear the responsibility of the above-mentioned particulars
