Visa Status : Resident in UAE till 2026

Objective

Proactive and detail-oriented Procurement and Estimation Engineer with a strong background in cost estimation, supplier management, and material procurement. Adept at optimizing project costs, negotiating with suppliers, and ensuring timely delivery of materials. Seeking to contribute my expertise in procurement and estimation to support engineering projects and enhance operational efficiency.

Work Experience

Procurement Engineer

Airolink Building Contracting LLC – Dubai

December 2020 to August 2022

- Managed supplier relationships, securing the best pricing, quality, and delivery schedules for project materials.
- Collaborated closely with estimation and project teams to provide accurate material cost projections for tendering and execution.
- Led procurement activities, ensuring all materials were sourced and delivered within budget and time constraints.
- Conducted supplier evaluations, managing performance to optimize quality and delivery.
- Streamlined procurement processes by coordinating with internal departments to align material supply with project timelines.

Key Achievements:

- Negotiated favorable terms with suppliers, resulting in significant cost savings on key materials.
- Improved project material delivery schedules, reducing delays and enhancing project timelines.

Junior Civil Engineer

Gazella Constructions and Interiors – Kerala

September 2019 to November 2020

- Assisted in preparing detailed cost estimates for civil works, factoring in material, labor, and overheads.
- Monitored procurement activities, ensuring alignment with the project's cost estimation and timelines.
- Negotiated supplier contracts for bulk materials and maintained close coordination between procurement and project teams.
- Analyzed material availability, updated estimation teams with real-time supplier information, and contributed to cost-saving initiatives.

Key Achievements:

- Reduced material costs through strategic supplier negotiations.
- Contributed to more accurate project cost estimations, improving bid success rates.

Construction Engineer

Vidya Academy of Science and Technology – Kilimanoor, Kerala

March 2014 to 2017

- Managed procurement and supply chain logistics for various construction projects, ensuring alignment with cost estimates.
- Provided detailed cost reports to project managers, highlighting areas for potential savings.
- Assisted in preparing competitive bids and tenders by providing accurate material pricing and supplier information.
- Worked closely with site engineers to coordinate material deliveries, ensuring project timelines were met without incurring additional costs.

Key Achievements:

- Contributed to a reduction in project costs through improved procurement processes.
- Enhanced coordination between procurement and engineering teams, leading to more efficient project delivery.

Education

Bachelor of Technology (B. Tech) in Civil Engineering

TKM College of Engineering, Kollam – India

March 2010 – June 2014 | First Class

Skills

- **Cost Estimation:** Expertise in estimating project costs, including materials, labor, and equipment.
 - **Procurement & Vendor Management:** Strong experience in sourcing materials, negotiating with suppliers, and managing vendor relationships.
 - **Project Coordination:** Adept at collaborating with engineering, procurement, and project teams to ensure smooth project execution.
 - **ERP Software Proficiency:** Skilled in using ERP systems for managing procurement activities, tracking orders, and vendor performance.
 - **Tendering & Bidding:** Experienced in preparing competitive bids and providing accurate material cost breakdowns for tender submissions.
 - **Inventory Management:** Proficient in monitoring material inventory levels and ensuring timely delivery for uninterrupted project progress.
 - **Analytical Skills:** Ability to analyze costs, optimize procurement strategies, and identify potential savings.
