

Deon Christen Veigas

Customer Success and Data Analytics Associate

+971 56322 6823 deonveigas@gmail.com Dubai, United Arab Emirates

PROFESSIONAL SUMMARY

Customer Engineer with a proven track record in driving business growth through strategic partnerships and data-driven insights. Possessing a strong blend of technical expertise in cloud technologies, data analytics, and AI, coupled with exceptional communication and relationship management skills. Adept at leveraging data to optimize business processes and deliver impactful solutions.

EXPERIENCE

• August 2023 - March 2024

Customer Engineer

Niveus Solutions / India, Mangalore

- **Client Relationship Management:** Cultivate and nurture deep client relationships by providing exceptional service, understanding their needs, and ensuring seamless communication throughout the sales and delivery process.
- **Deal Closure Acceleration:** Collaborate closely with sales and delivery teams to drive deal closure by identifying opportunities, overcoming challenges, and delivering compelling business solutions.
- **Data-Driven Decision Making:** Harness the power of advanced data analytics tools (Looker, Looker Studio, Power BI, Tableau) and AI technologies (AutoML, DocAI, GenAI) to extract actionable insights. Optimize sales, shipping, logistics, and other corporate functions through data-driven recommendations.
- **Data Governance and Security:** Safeguard sensitive information by maintaining data integrity, accessibility, and compliance with strict privacy regulations (e.g., DLP API for data masking.)

• August 2022 - September 2022

Zephyr Technologies

Intern / India, mangalore

- Worked as an intern on a project developing a smart system that uses KNN and regression analysis techniques to identify credit card fraud. learned how to organize data, predict patterns, and tidy up untidy datasets.
- Gained practical experience with Python model training, validation, and testing. helped lay the groundwork for more advanced fraud detection techniques.
