## SKILLS

Project Management

MEP Services

HVAC Design

HAP

ASHRAE Fitting Database

AutoCAD

Computational fluid dynamics(CFD) analysis using SimFlow 4.0

Holds UAE Driving License

Inventor

## PROFILE

An enthusiastic self-propelled engineer with strong leadership and communication, proven academic achievements, and possess the right technical and soft skills required to drive the organization to achieve its goals and objectives and make the difference now seeking a challenging position as a MEP engineer with an organization that the vision and the potential for development, growth, and expansion and at the same time maintain the high standard of performance and business ethics.

## EMPLOYMENT HISTORY

### MEP Engineer, REMCO (Reliance Electro Mechanical And Plumbing L.L.C)

Dubai

Dec 2018 — Present

- Analysis of contract documents (drawings and specification) phasing plans, MEP systems interrelationships, construction sequencing, and project schedules.
- Facilitates problem-solving, it may arise, between MEP subcontractors during construction
- Validates design issues related to MEP and suggests alternative solutions.
- Estimation in Heat load calculation and other HVAC design calculation
- Material submissions for MEP equipment's and updating of material submission log
- Coordination and administration of MEP related materials, systems and shop drawings submitting
- Logging and posting of all MEP changes and as-built information on field drawings
- Direct, monitor and control the activities of MEP subcontractor
- Validation and reviewing the scope, budgeting, and justification of MEP change work order
- Raising IR for MEP works for consultant approval or RFI's in case any clarification required
- Preparing weekly and monthly reports and reviewing with manager and construction manager
- Preparing estimation, tendering, and variation orders for the projects
- Preparing JAS for tendered projects
- Assists in the testing and commissioning of MEP equipment
- Identifying & developing alternate vendor sources for achieving cost-effective purchase of equipment, accessories, and materials with timely delivery so as to minimize project cost
- Preparing of value engineering to propose alternative items neither quality nor objective compromised at the lowest cost, identify and eliminate unwanted costs and improve quality and function
- Designing air terminal outlets as a part of HVAC designing for various projects

## HOBBIES

---

Music  
Travel  
Gaming

- Experienced in execution of Fire Alarm System, Emergency system, Clean Agent System, and BMS as per the site requirement and authority regulations

## EDUCATION

---

### Bachelor Of Technology, University of Calicut

Thrissur

Jun 2012 — Jun 2016

## KEY PROJECTS

---

Huawei · Earnest & Young Headquarters · PwC · Diamond Meat Processing LLC

## COURSES

---

### PG Diploma in Oil & Gas Piping Engineering ASTS

ASTS, STED Council

- Piping design
- Piping Stress Analysis
- Plant design management
- Project Management
- Risk Analysis

### Diploma in QA/QC Engineering

EQC Engineering

- NDT Certification Level 2 in ultrasonic testing
- Magnetic particle testing
- Radiographic testing & Penetrant Testing

## INTERNSHIPS

---

### Intern

Fluid Control Research Institute Training Certificate (02/2017 - 02/2017) Five Days implant training in Fluid Control Research Institute, India
