## WORK EXPERIENCE

### Technical Project Manager

CWTECH

2021-TODAY

- Spearheaded large-scale technical projects from inception to completion, ensuring timely delivery within budget and scope.
- Facilitated cross-functional collaboration among developers, designers, testers, and business analysts to drive project success.
- Led Agile/Scrum processes, including sprint planning, daily stand-ups, sprint reviews, and retrospectives.
- Defined project goals, requirements, and priorities in close consultation with executive management.
- Managed project risks and resolutions, maintaining continuous alignment with project objectives.
- Developed comprehensive project documentation, including charters, requirements, and test plans, while mentoring team members for enhanced performance.

## Business Development Manager

APPISKEY

2019-2020

- Supported project management activities, including planning, scheduling, and coordination.
- Generated project status reports for stakeholders, maintained project documentation, and contributed to Agile/Scrum ceremonies.

## Software Specialist

Dubai Electricity & Water Authority

2015-2019

- Developed infrastructure for SharePoint and MS CRM, creating a combined BI Dashboard for SCADA systems.
- Led initiatives in SCADA e-Reporting, sales and complaint automation, and managed development, test, and production environments.

## Senior Microsoft Developer

The Arms Group

2014-2014

- Delivered SharePoint-based projects, including the "Maktoum Initiatives" and solutions for Dubai Courts and the National Crisis & Emergency Management Authority.

## Senior Software Engineer

Bahria Enterprise Systems and Technology

2013-2013

- Managed SharePoint and CRM projects, demonstrating strong leadership as a Project Manager/Team Lead.

## Pre Sales Consultant

e-Access

2012-2013

- Successfully deployed SharePoint EPM and BI Dashboard solutions for key clients, including Dubai Islamic Bank and Meezan Investment.

## Software Developer

Finosys

2011-2012

- Worked on diverse projects focusing on CRM and SharePoint development, contributing to the APNS project and UK Business CRM.

## Developer

Aga Khan University Hospital

2009-2010

- Developed and managed critical systems including the Physician Credential System, Pead Research Developer system, and Integrated Lab Management System.

I am a seasoned Technical Project Manager and Software Developer with extensive experience in managing large-scale technical projects and developing innovative solutions across various industries. My expertise spans across project management, software development, cloud computing, and database management. I have a proven track record of delivering projects on time and within budget, ensuring high levels of customer satisfaction. Eager to bring my diverse skills and experience to new challenges, I am actively seeking opportunities for professional growth and development, particularly in dynamic environments. I am specifically interested in relocation to the UAE, aiming to contribute to and grow within the region's vibrant technology sector.
