Objective

After complete my studding I am looking for an opportunity to finally pursue my career as an engineer by broadening my skill set and managerial experience by being part of a well-established organizational environment and community.

Education

Bachelor of Engineering | Al-Azhar University - Gaza

Sep 2013 – Jan 2019

Mechatronics engineer.

At the third year of my studies, one of my projects was a mini-CNC drawing machine.

My team and I made a robot to clean solar cells for my engineering degree graduation project.

Experience

Sales Stuff | SH trade

About the company

The company specializes in the wholesale and retail sale of detergents and cosmetics, consisting of a shop inside the market and two buses to distribute goods to grocery stores and supermarkets.

Mar 2015 – Jan 2019

During this time, I was a university student and worked as a part-time sales stuff.

Tasks

Receiving and dealing with customers.

Receiving orders over the phone and communicating with delivery companies to deliver them.

Sales Manager | SH trade

Jan 2019 - Jul 2021

After my graduation, I was appointed as a sales manager for the company and continued working until the start of the Corona pandemic.

Tasks

Supervising in-store sales and bus sales.

Solve problems between workers and shop owners.

Make sure to reach as many customers as possible.

Managing recruitment processes within the company
